DETAILED ACTION

1. This application is in condition for allowance except for the following formal matters:

I) Amendment filed 09/11/2003 is defective. Amendments subsequent to the original presentation of the new claims do not comply with 37 CFR 1.173(b). All amendments are to be made with respect to the original Patent. If it is being added to the original patent, it must be underlined. If it is being deleted from the original patent, then it needs to be bracket. Claims 19-26 must be underlined in their entirety. Claim identifier for claims 20-22 and 24-26 should be "previously presented" not "original".

II) A supplemental declaration is required for the amendment to cover all "errors" (i.e., departure from the original patent) subsequent to the filing of the reissue.

III) The assent and 3.73(b) certification are defective. They are not signed by someone having authority to act on behalf of the assignee. Standard form for the 3.73(b) certification is recommended. See MPEP 324.

IV) Drawings -- New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the drawings submitted on 07/08/1998 have been objected by the draftsman. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Art Unit: 2618

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

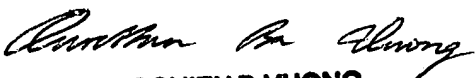

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
